ACT.151	M9-56; NATO Civil Emergency Planning (CEP) Course	Proposed by: NS AOC: CEP
		AUC. CLF

Topic: Aim of the course: To introduce participants to Civil Emergency Planning (CEP) in NATO, to emphasize the linkages between CEP and the military authorities within NATO, in particularly CIMIC during planning and execution of NATO operations and to explain the links to other international organizations.

Scope of the course: Upon completion of the course the student should be able to:

- Comprehend the main principles of the Alliance Strategic Concept as a basis for understanding:
- a. NATO's mission and organisation
- b. NATO's military strategy
- c. Organisation and responsibilities within the framework of the EAPC
- d. NATO's role in complex emergencies
- e. NATO's relations with United Nations and other International Organisations
- Know the role, functions, organisation, policy, practice, and trends of NATO Civil Emergency Planning.
- Know the role, policy and trends of Civil Military Co-operation and the links to CEP.
- Analyse and comprehend national arrangements for co-operation.

ACT.152	M9-57; NATO Strategic/Operational Civil-Military Cooperation (CIMIC)	Proposed by: NS
	Course	AOC: CEP

Topic: Aim of the course: To explain the strategic context within which CIMIC is practised in a NATO operation. To teach the principles and practise of CIMIC at strategic and operational level.

Scope of the course: Upon completion of the course the student should be able to:

- Understand the place of CIMIC in modern Crisis Management.
- Explain the doctrine and associated concepts.
- Describe the CIMIC capabilities, which currently exist in NATO and what capabilities are planned in the future.
- Describe the Civil-Military dimension (civil organisations included).
- Understand co-operation with representatives from IOs / NGOs at strategic and operational level.
- Be part of a planning activity at the strategic and operational level.

ACT.153	M9-59; NATO Operational Liaison Civil-Military Cooperation (CIMIC)	Proposed by: NS
	Course	AOC: CEP

Topic: Aim of the course:

- To explain how to liaise properly between a task force commander / J9 / G5 and civil actors within a theatre. 1-
- 2-To equip a capability for HRF(L).

Scope of the course:

Upon completion of the course the student should be able to:

- 1-Describe the origins of NATO's CIMIC policy and doctrine.
- Describe the civil-military dimension of recent operations. 2-
- Describe the civilian organizations (key players) and their perception of the military. Explain the role of the CIMIC in the staff. 3-
- 4-
- 5-Explain in outline the NATO planning process.
- Describe the problems encountered in conducting CIMIC and liaising with IOs/NGOs in recent operations.
- 6-7-Explain the tasks of a CIMIC LNO in theatre.
- 8-Prepare and conduct a meeting with an IO in its area.
- 9-Describe the relationship between CIMIC, media and INFO OPS.

US.21	DEFENSE RESTRUCTURING IN RESIDENCE COURSE (MASL # P171402)	Proposed by: US
		AOC: DPB
Topic: The Center for C	ivil-Military Relations (CCMR) offers a two-week Expanded International Mil	itary Education and Training
(EIMET) approved course	e entitled "Defense Restructuring" at the Naval Postgraduate School, Monte	erey, California, once a year.
CCMR is the lead compo	nent institution for the combined 'School of International Graduate Studies'	(SIGS)-taught course. The
key objectives of the cou	Irse are to: (1) support international understanding of the political, strateg	ic, and operational components
of defense restructuring;	and (2) enhance other countries' capabilities to plan effectively for defense	se establishment restructuring.

US.32	PRINCIPLES OF DEFENSE ACQUISITION MANAGEMENT IN RESIDENCE	Proposed by: US
	COURSE (MASL P159200)	AOC: DPB
Topic: The Internationa	I Defense Acquisition Resource Management Program (IDARM) offers a two	-week Expanded International

Military Education and Training (E-IMET) approved course entitled "Principles of Defense Acquisition Management," at the Naval Postgraduate School, Monterey, California twice yearly.

The key objectives of this course are to:

1. Provide course participants with an understanding of the fundamental concepts and challenges associated with defense acquisition and logistics decision making.

2. Examine needs based requirements planning along with the relationship among national security and military strategies and the acquisition and logistics systems.

3. Assist countries in their efforts to develop and institutionalize transparent, efficient and effective defense acquisition and logistics systems.

 AOC: LOG

 Topic: Aim of the course: The aim of the course is to get the Movement & Transportation (M&T) operators familiar with the Operational Planning Process (OPP) and to integrate the M&T planning in the OPP. An important aim is to apply the features of the Allied Deployment and Movements System ADAMS to both the movement and OPP.

Scope of the course: This training is applicable to all personnel assigned to NATO, national or international units in logistics' positions.

Military, Scientific and Technical value of the course: This training will progressively guide participants from an introductory information-gathering level to a level that allows participants to utilize NATO's joint logistics procedures.

Established in December 1998 to address a recognized gap in standardization of Maritime Logistics doctrine and procedures, the WG staffs proposals for military standardization in this specialised support area. The aim is to enhance logistic co-operation and effectiveness of NATO's multinational maritime forces. In 2003 the WG's responsibilities broadened to incorporate Replenishment at Sea (RAS). In addition to all forms of RAS this practical element of seamanship includes towing, boat transfers, boat hoisting, waste transfer in support of multi-national task forces.

NSA.2757	CSSWG (Combat Service Support)	Proposed by: NSA			
		AOC: STD			
Topic: Combat Service S	Support Working Group (CSSWG) The CSS WG is establis	ned to initiate and develop standardization in the			
field of Combat Service S	Support Doctrine and Procedures. The CSS WG is to funct	ion as the Army Board's overarching body on the			
subject of CSS, for which the Land Forces are considered as the Lead Service within the WG - and Panel Inter Service approach.					
Therefore the tasks of the CSS WG are to initiate, develop, coordinate and harmonize standardization proposals and/or prepare					
STANAGs and APs as for	warded by Panels, WG members and the Army Board, rel	ated to Land Forces CSS Doctrine and Inter-			
Service CSS Procedures a	and Techniques.

NSA.2759	ARTYWG Procedures Panel (PP)	Proposed by: NSA			
		AOC: STD			
Topic: Artillery Working	Topic: Artillery Working Group (ARTYWG) Procedures Panel (PP) maintains AArtyP-1, which details the procedures agreed upon				
by NATO forces for use by their artillery units in order to produce timely and and effective artillery support to manoeuvre units.					
Owing to the wide variety of organizations and equipment within the NATO forces AArtyP-1 is concerned with the fundamental					
procedures likely to be u	sed in multi-national operations.

NSA.2760	ARTYWG Doctrine Panel	Proposed by: NSA AOC: STD

Topic: Artillery Working Group (ARTYWG) Doctrine Panel (DP) maintains AArtyP-5 Artillery Tactical Doctrine, which provides guidance for field artillery commanders and their staffs to identify the considerations for the tactical employment of fire support and the use of field artillery assets in all NATO operations in accordance with ATP-3.2. The successful planning and execution of military operations requires a clearly understood and widely accepted doctrine, especially when these operations are conducted by NATO or multinational forces. This is the primary publication for field artillery tactical doctrine within fire support. It expands the application of field artillery within the context of ATP-3.2 (STANAG 2868).

NSA.2761	ARTYWG Land Tactical Targeting Panel	Proposed by: NSA AOC: STD
----------	--------------------------------------	------------------------------

Topic: This Panel develops AJP-3.9.2 (Land Tactical Targeting Procedures). Targeting is the process of selecting targets and matching the appropriate response to them, taking account of operational requirements and capabilities.

Targeting is a multi-disciplined G3 process in which field artillery staff at all levels are involved to ensure the complete integration of the fire support system in the commander's plan. It involves planning for both lethal and non-lethal assets. Close liaison with G2

mechanism to achieve the required interoperability of all these aspects. Developing an Interoperability Policy that will lead to identifiable Interoperability Requirements has become a main mission for the NATO Standardization Organisation (NSO). As NATO's operational need for Interoperability continues to grow, it is necessary to accurately identify the requirements. This seminar deals with these new demands of interoperability.
